Introduction

Welcome! This product contains 90 art and craft activities to support hands-on imagination and creativity. Activities are open-ended; the value of each activity is in the process rather than in the finished product.

Outcomes will vary according to the number and ages of participants, skill levels, interests and available materials.

Activities are mostly evergreen, with some seasonal themes included. More than one set of adult hands may be needed to deliver and supervise some activities.

The whimsical drawings will provide inspiration while leaving plenty of room for creativity.

Above all, be safe, discover, and have fun!
