## Printable File Terms of Use

1. Print on any standard printer. Regular printer paper is suitable for an activity such as a coloring page, while a heavier paper like cardstock is recommended for a game board or set of cards. Laminate any page for durability, especially an activity that will be used numerous times.
2. Activities are meant to be delivered with adult supervision. Engagement and learning outcomes will vary according to individual interest and skill levels. Please read our Disclosure and Disclaimer page in the About Us section on the homepage for more information about the content of the website.
3. Privacy and Disclaimer: Please read the Privacy Policy on the website regarding use of personal information including email address.
4. This file is for parents and teachers to use at home or in the classroom, and is not intended for commercial use.
